Bibliogov Mrz 2013, 2013. Taschenbuch. Book Condition: Neu. 246x189x7 mm. This item is printed on demand - Print on Demand Neuware - This research project is designed to produce an index for every Census tract and block group in the United States plus Puerto Rico using multiple criteria measuring the housing, demographic, and economic conditions of each tract. The index identifies each tract's and each block group's potential opportunity for Housing Choice Voucher (HCV) holders seeking housing. This opportunity is to estimate each neighborhood's likelihood to provide high quality housing and neighborhood conditions. The index is intended to be used by Public Housing Authorities (PHAs) to help voucher holders identify neighborhoods (defined as Census Tracts) that have relatively low poverty rates, an available stock of rental units offered at rents at or below Fair Market Rent limits, a high level of employment and educational opportunities for HCV holders, and a relatively low density of households who receive housing assistance from the HCV as well as other programs. 120 pp. Englisch.
