 in the subject Communications - Media and Politics, Politic
 Communications, grade: 1, University of Salzburg, language:
 English, abstract: The progressing Information and
 Communication Technologies (ICTs) are the main source for
 innovation nowadays and are causing a so called 5th economic
 cycle after the ones that emerged by the industrial revolution
 (1st cycle), the steam engine and coal (2nd cycle), steel and
 heavy engineering (3rd cycle) and automobile, oil,
 petrochemicals and mass production (4th cycle). According to
 Perez (cf. 2009: 12) the so called 'information revolution' has
 been enabled through cheap microelectronics, computers,
 software, telecommunications, control instruments, computer-
 aided biotechnology and new materials. ICTs are long since
 interweaving all parts of daily life and didn't stop at
 administration processes so that a new model of the interaction
 between the government and the citizens evolved. The new
 model of communication between the government and the
 citizens through ICTs is called E-Government and as part of this
 can Open Government (Data) be seen. Many states worldwide
 already took actions to put this into practice;...
