*It is just one of my personal favorite books. I was able to comprehend every little thing out of this published publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Dr. Letterburger listens patiently then gently guides Z on an enlightening journey to self-discovery. Its a wonderful introduction for children to increase self-awareness and understand their unique value. The story also provides a fun reminder for adults to be comfortable with who they are and what they bring to others. About the amaZing illustrations: the author took the unillustrated earlier version of this book on a 2-month mini tour to elementary schools in New Jersey. Encouraged by very positive feedback from more than 2, 500 students and teachers and enriched by more than 250 illustration submissions, Hochman assembled this colorful sequel. Well, since the story has stayed the same, its not so much a sequel as a sequillustration. The addition of 15 adorable renderings from imaginative young illuZtrators brings the story new insight and joy. After reading the book youll surely understand why the author is calling it a Zequillustration! This book is also being produced digitally as an interactive book with audio and a quiz.
