Claire s book is mainly a compilation of her original Maths tutoring notes, having been highly praised by students and parents alike. The book uses quirky rhymes and methods which have proven very popular with students helping them remember methods achieving higher results than originally predicted at GCSE Maths. The book refers Maths topics to things teenagers relate to, explaining methods in wacky ways referring to computer games, comic characters, dance moves, etc, helping students learn Maths in a fun and motivating way. It was always Claire s dream whilst tutoring her GCSE Maths students to one day publish her notes, prompted by the positive comments of her students and their parents, this book is the culmination of that dream.
