Createspace, United States, 2014. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.How to use Windows 8 (8.1) for the average person. If you think I don t understand it, or more importantly I don t like it This book can help you. If you bought a computer in the past 2 years, you probably had no choice but to use 8. So for all those who had to use 8 but hate it, I will show you how to use it. Windows releases seem to be on a cycle of good and bad. At first look Windows 8 showed promise. But after it was released to the public its unique interface started to crack. Immediately, people started saying I don t understand it, and more importantly I don t like it. After using and working on Windows 8 for 2 years now I dislike it more and more each day. THE BOOK EXPLAINS: Doing Windows updates and the 8.1 update. Creating a username not associated with a Microsoft account. The Start screen Charms Power, Search, Wireless, and Control Panel Programs The Desktop and the 8.1 Start button IE 11 The future of Windows 8 and more. I am not a Windows hater who just puts down anything Microsoft does. I Promoted Windows Vista and ME (Millennium) when they came out and everyone complained about them as we are about 8. If you take some time to learn how to use it, you will be fine I said. Things change and you just have to go with it I would explain. But shortly after 8 was released to the public, I found getting used to 8 was not going to happen. This book may be late to the game (Windows...
